

Cinema Seating Collection

COLLECTION

We understand and care about moviegoers' first concern when they are sitting in front of the screen: Comfort. Every moviegoer expects to sink back in chairs and enjoy the movie as comfortable as possible because a movie may last for 3 hours or even more.

Ever since we launched our first cinema chair, we have devoted every effort to our cinema seating products, not only to fulfill needs for comfort, but also to exceed your expectations by creating a complete cinema experience to your moviegoers.

Our cinema seating comfort is secured by:

- **Adoption of quality foam material from BASF Company** delivers high resilience support.
- **Optimization of ergonomic cushion design** encourages good posture yet premiere comfort for long hour movies.
- **Distribution of full height sightline** set for better visibility.

The next thing moviegoers care about is the facilities which make their cinema experience more enjoyable, such as in-seat food and beverage or a love-seat creation. Therefore, we provide optional features including big swivel tray table, in-arm storage compartments and flip-up middle arm for love-seat version to complete and enhance their cinema experience.

You can choose your cinema seats from our extensive collection, which includes full rocker, lounge back, fixed back and recliner sofa. Give us a call today at +86-20-85626682 or send us email at info@leadcomseating.com, we look forward to talk with you.

PREMIUM VIP RECLINER COLLECTION

Excellence is built into every VIP cinema recliner of Leadcom Seating to create a truly memorable cinema experience for your patrons.

Our exclusive collection of VIP cinema recliner, unlike most recliners in China market built at household market standard, ours are well-equipped tailoring especially to the high-traffic public seating area at higher standard of durability by most quality material adopted. They can be configured in straight or curved line with single seat, love seat or multiple seats, and can also be customized in fixed back/manual control/electric control version.

We also offer full range of accessories such as LED cupholder, storage compartment, food tray, table metal foot, replaceable armrest padding etc. to complete your cinema experience. The highlight of our latest development and innovation in VIP recliner collection is our easy clean footrest mechanism, which allows cleaners to clean up under-seat areas by easily and quickly lift-up the footrest by hand. To make your cinema cleaning more easily and time-saving, we also provide industry-unique VIP rocker - the Crown Jewel model with imaginable options such as PP outerback, trash blocker, PP arm protector, replacable arm padding etc.

We believe that by fullest consideration of your needs, you will be surprised how much we are different from any others.

- 4"-high metal trash blocker

Two kinds of back rocker possession for you to choose from - 37", 38.6" overall depth

CINEMA SEATING

Millennium model features 3-pillow back and electric headrest. It is designed and built to better support your head and lumbar and make you as comfortable as possible.

Millennium also offers the benefit of cupholders and tables and is available in various configuration to suit your spaces.

ROYAL's sleek lines, top-quality foam and breathable leather are perfect to create a state of deep relaxation. It offers options including adjustable headrest, intermediate table with in-arm storage compartment and food tray to complete your cinema experience.

Millennium's footrest is available in flip-up style for easy daily cleaning. By simply and quickly flip up the footrest, your cleaners can easily make your under-seat areas clean up. This would save plenty of time before next movie.

The BARRON has the same seat and back design as BARRON, but with a square end arm for your option.

CINEMA SEATING

This beautifully designed redefinition of cinema luxury features ultra comfortable cushion, chaise-style footrest and easy lean-back reclining motion, it delivers you a whole new level of cinema experience.

LS-813B model accommodates two pillows design, one small on upper side and the other bigger one lower side. This design provides better support for both your head and lumbar, and therefore invokes a strong sense of security, comfort and deeper seated relaxation.

CINEMA SEATING

With its chaise-style design, premium foam and smooth reclining motion, PHOENIX not only offers a complete cinema experience to your moviegoers, but also delivers unexpected value to your cinema.

Manufactured in premium materials, the LORENZ delivers soft supple touch-feel, smooth reclining motion and unbelievable comfort. At the touch of a button, you are in a new level of luxury.
